C-O-N-F-I-D-E-N-T-I-A-L

Each basin route administration derives its name from the area in which it operates. Thus, the Volga Basin Route Administration maintains waterways in the Volga River basin (37), the Caspian Seaways Route Administration (Kaspmorput') maintains waterways in the Caspian Sea, the Northwestern Basin Route Administration maintains waterways in the northwestern basin, and so forth. Each operating steamship line has an appropriately named basin route administration maintaining waterways in its area.
